Inpatient Clinic Physicians

CLINICAL FOCUS

Dr. Aslan's main area of work is inpatient medical care. As an inpatient clinic physician she is involved in the day-to-day medical assessment and follow-up of patients admitted to the hospital, working alongside the specialist teams responsible for their treatment.

Her experience also includes oncology clinic care, gained during her time in the Oncology Clinic at Tınaztepe Galen Hospital, where she worked with patients undergoing cancer treatment and follow-up. In addition, her residency training in chest diseases gives her a grounding in respiratory diseases, which is relevant to the medical care of inpatients with lung and breathing-related conditions.

INTERNATIONAL PATIENTS

Dr. Aslan speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
