Rehabilitation

CLINICAL FOCUS

Dr. Yüksel's areas of expertise are cardiopulmonary rehabilitation, spine health and pelvic pain treatment. Cardiopulmonary rehabilitation is a structured, supervised program intended to support patients whose heart or lung condition affects their exercise tolerance and daily activity.

In the field of spine health, Dr. Yüksel evaluates patients with back and neck complaints, reviews existing imaging and previous treatments, and discusses non-surgical rehabilitation options appropriate to the individual case. Her work in pelvic pain treatment involves a careful history, clinical examination and a treatment plan developed with the patient.

INTERNATIONAL PATIENTS

Dr. Yüksel consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
