Hospital, İstanbul

DEPARTMENT
Neurology

CLINICAL FOCUS

A substantial part of Dr. Göktaş's practice is dedicated to headache medicine. She assesses and manages patients with migraine and other forms of headache, and her practice includes migraine Botox, migraine vaccination and nerve blocks for headache, which may be considered for selected patients after clinical evaluation.

Her second area of focus is stroke and preventive treatments, with an emphasis on stroke prevention through the identification and management of risk factors. In addition, Dr. Göktaş evaluates and follows patients with epilepsy, memory loss, peripheral neuropathy and essential tremor.

Migraine Migraine Botox Migraine vaccination Headache

Nerve blocks for headache

INTERNATIONAL PATIENTS

Dr. Göktaş speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the hospital's international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, arranges appointments and organizes the...
