Diagnosis and Treatment of Prostate...

HOSPITAL
Acibadem Kozyatagi Hospital, İstanbul

DEPARTMENT
Urology

CLINICAL FOCUS

A central part of Dr. Özveri's practice is the diagnosis and treatment of prostate diseases. This includes the evaluation and management of benign prostatic hyperplasia and prostate cancer. He also treats testicular cancer and undescended testis.

Beyond prostate and testicular conditions, his areas of expertise cover kidney diseases and kidney stones, bladder health and diseases, and urinary incontinence. His work in urogynecology addresses urological conditions affecting women, including incontinence.
