Ankle Surgery

HOSPITAL

Acibadem Kozyatagi
Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

A large part of Dr. Çift's practice concerns the hip and knee. This includes knee replacement surgery and hip and knee joint replacement, as well as robotic surgery where it is considered appropriate for the individual patient.

In the upper extremity, his work covers shoulder and elbow surgery, including elbow surgery. Whether a surgical or non-surgical approach is suitable depends on the findings of the examination, the imaging, and the patient's overall situation, and this is discussed on an individual basis.

Knee replacement surgery

Hip and knee joint replacement surgery

Robotic surgery

Foot and ankle surgery

Limb lengthening

CONDITIONS TREATED

Cruciate ligament rupture

Meniscus tear

Sports medicine and sports traumatology

Shoulder impingement

Shoulder dislocation
