DEPARTMENT
Gastroenterology

CLINICAL FOCUS

A central part of Dr. Ünal's practice is the evaluation and treatment of inflammatory bowel disease, including Crohn's disease and ulcerative colitis. He performs diagnostic and therapeutic endoscopy and also carries out endoscopic sleeve gastropasty (ESG), an endoscopic procedure performed through the mouth without surgical incisions.

In line with his subspecialty, Dr. Ünal treats pancreatic diseases, biliary tract diseases and a range of liver diseases, including fatty liver disease and liver failure. Care in these areas typically combines clinical assessment, laboratory and imaging review and, where indicated, endoscopic evaluation, with medical management adapted...
