CLINICAL FOCUS

Dr. Özçelik evaluates and treats a range of ear, nose and throat conditions. His areas of expertise include snoring and sleep disorders, sinusitis, adenoid conditions, pharyngitis and hoarseness. On the ear side, he sees patients with vertigo and performs inner ear surgery.

His published work reflects the breadth of his clinical experience. He has co-authored papers on endoscopic sinus surgery, the effectiveness of steroids in the treatment of Bell's palsy, tympanometric and audiometric findings in otitis media with effusion, otorrhea following ventilation tube placement, esophageal and...
