Hospital, İstanbul

DEPARTMENT
Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Tüfekçi's clinical work covers anesthesiology and reanimation. His areas of expertise include perioperative anesthesia care, which involves supporting patients before, during, and after procedures that require anesthesia, and pre-anesthesia assessment, in which a patient's medical history, current medications, and existing conditions...

Within reanimation, his role relates to the monitoring and support of patients during and after anesthesia. The specific type of anesthesia and the extent of perioperative monitoring are decided on a case-by-case basis, taking into account the planned procedure and the individual patient's condition.
