DEPARTMENT
Pathology Department

CLINICAL FOCUS

Pathology is a diagnostic specialty. Rather than treating patients directly, a pathologist examines samples that other physicians have obtained and issues a report describing what the sample shows. Dr. Andabil's work at the hospital covers the diagnostic evaluation of tissue and laboratory specimens.

For international patients, this means that Dr. Andabil's contribution usually takes place in the background of a multidisciplinary care process. When a specimen is sent to the Pathology Department, it is evaluated and reported, and the report is then returned to the referring clinician, who discusses the findings with the patient.

INTERNATIONAL PATIENTS

Dr. Andabil speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a hospital visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, including MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
