Pathology Department

CLINICAL FOCUS

Dr. Zeren's diagnostic work centers on pulmonary and mediastinal pathology, including the assessment of lung and pleural specimens. Her published work in this area addresses the causes of pulmonary granulomas, benign and malignant mesothelial proliferation, and molecular markers such as p16/cdkn2a, EGFR and PDGFR in pleural malignant...

She also evaluates specimens in gynecological and breast pathology, with publications on cervical cytological abnormalities, Müllerian adenosarcoma of the uterine cervix, fallopian tube carcinoma and ovarian carcinoma.
