CLINICAL FOCUS

Dr. Aygün's clinical work covers infections acquired in the community as well as conditions that require longer-term monitoring. She assesses and manages hepatitis, HIV and AIDS, HPV, syphilis and other sexually transmitted infections.

Preventive care is a further part of her work. Dr. Aygün advises on adult vaccination, including which vaccines may be appropriate given a patient's age, medical history or exposure risk, and provides travel health consultations for patients planning to visit regions where particular infections are more common.
