CLINICAL FOCUS

As a family physician, Dr. Oluk works with adults across different stages of life, with a particular interest in patients who have long-standing or multiple health concerns. Chronic disease management forms a central part of his practice: this involves reviewing a patient's current diagnoses, medications and test results, and helping to organize ongoing follow-up.

Beyond long-term care, Dr. Oluk's areas of expertise include the assessment of a number of acute presentations. These include trauma, environmental emergencies, drowning and acute hypoxia, airway obstruction, and insect bites and stings.

INTERNATIONAL PATIENTS

Dr. Oluk speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior medical records, such as laboratory results, imaging reports (for example MRI, CT, X-ray or ultrasound), pathology results, operative notes and...
