DEPARTMENT
Neurology

CLINICAL FOCUS

Dr. Bayar assesses and manages a range of neurological conditions. In the field of movement disorders, her work includes Parkinson's disease and essential tremor. She also sees patients with dementia, Alzheimer's disease and memory loss, and her interest in aging covers neurological changes that may accompany later life.

Her practice also covers epilepsy, vertigo and balance disorders, trigeminal neuralgia, and peripheral neuropathy and neuropathic pain. For patients with headache, she works with migraine treatment protocols, including migraine vaccines and biological agents, where these are considered appropriate for the individual patient.

Movement disorder treatment

Vertigo and balance disorders

Epilepsy

Memory loss

Stroke prevention

INTERNATIONAL PATIENTS

Dr. Bayar speaks Turkish and English. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI or CT reports, laboratory and pathology results, and discharge summaries, arranges appointments and organizes the hospital visit; interpreters can be arranged when needed.
