CLINICAL FOCUS

Dr. Ballı's clinical work centers on interventional radiology, in which imaging guidance is used to perform minimally invasive procedures. Within this field, his listed expertise includes transarterial radioembolization (TARE), a liver-directed procedure delivered through the hepatic arteries.

His published research reflects this focus. He has co-authored studies on factors affecting survival after transarterial radioembolization in unresectable intrahepatic cholangiocarcinoma, outcomes of Yttrium-90 TARE in patients with the macrotrabecular-massive subtype of hepatocellular carcinoma, short-term changes in angiogenesis factors after TARE, and MRI-based radiomics analysis for predicting radiological response to...

INTERNATIONAL PATIENTS

Dr. Ballı consults in Turkish and English, and interpreters can be arranged for other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging — for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries — and arranges appointments and the hospital visit.

EDUCATION & TRAINING

2009 Çukurova University Faculty of Medicine Radiology

2002 Çukurova University Faculty of Medicine

PROFESSIONAL EXPERIENCE

2024 Acibadem Healthcare Services

2020 Çukurova University Faculty of Medicine Radoloji AD — Associate Professor

2014 Johns Hopkins University, Interventional Radiology — Observer

2012–2020 Çukurova University Faculty of Medicine Department of Radiology — Assistant Professor

2011–2012 Çukurova University Faculty of Medicine Department of Radiology — Radiology Specialist

2010–2011 Bingöl State Hospital — Radiology Specialist
