DEPARTMENT
Cardiovascular Surgery

CLINICAL FOCUS

Dr. Kahraman's field is cardiovascular surgery, the surgical discipline concerned with diseases of the heart and the blood vessels. Within the Cardiovascular Surgery unit, patients are evaluated for conditions that may require an operative or a non-operative approach, and the appropriate course is determined on an individual basis after a review of the clinical picture, existing test results and any previous treatment.

For international patients who wish to read about the broader field before a consultation, this site provides general information on coronary artery bypass surgery, heart valve diseases treatment and aortic aneurysm treatment. These pages describe the treatments in general terms;

INTERNATIONAL PATIENTS

Dr. Kahraman consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
