### CLINICAL FOCUS

Dr. Bildirici cares for women with high-risk pregnancies and provides pregnancy follow-up when maternal or fetal conditions require closer monitoring. His areas of expertise include gestational diabetes and preeclampsia, two conditions that may call for more frequent assessment during pregnancy and careful planning of delivery.

In the area of delivery, Dr. Bildirici manages epidural delivery, cesarean delivery and water birth. The approach to delivery is discussed with each patient in light of her pregnancy history, the course of the current pregnancy and any maternal or fetal findings.
