CLINICAL FOCUS

Dr. Yıldız's practice centers on the evaluation and medical treatment planning of common solid tumors. His areas of expertise include breast cancer, lung cancer and other thoracic cancers, and ovarian cancer. He also sees patients with prostate cancer and testicular cancer.

In the field of gastrointestinal oncology, his work covers liver cancer and stomach cancer. As a medical oncologist, his role is to assess each patient's diagnosis and stage, review the findings with the treating team, and plan systemic (drug-based) treatment where it is appropriate.
