General Surgery

CLINICAL FOCUS

Dr. Özden evaluates and treats patients with a range of hepatobiliary and pancreatic conditions. His areas of expertise include liver diseases such as fatty liver disease and liver failure, liver cancer, and pancreatic diseases. He also manages biliary tract diseases, including cholecystitis, gallbladder cancer and bile duct cancer.

His surgical practice covers oncological surgery for tumors of the liver, pancreas and biliary system, and he uses robotic surgery where it is considered appropriate for the individual patient.
