HOSPITAL

Acibadem Eskisehir Hospital

DEPARTMENT

Plastic, Reconstructive & Aesthetic Surgery

CLINICAL FOCUS

Dr. Altundağ's clinical work covers both the aesthetic and the reconstructive branches of plastic surgery. In aesthetic plastic surgery, treatment is planned around the individual patient's anatomy, expectations and general health, and the consultation includes a discussion of what surgery can and cannot realistically achieve, as well as...

Reconstructive microsurgery is a further area of his practice. It relies on magnification and fine instruments to work on small blood vessels and nerves, for example when tissue is moved from one part of the body to another to close a defect.
