DEPARTMENT
Urology

CLINICAL FOCUS

A large part of Dr. Tüfek's practice is dedicated to urologic oncology, including the evaluation and surgical treatment of prostate tumors, bladder tumors and kidney tumors. Where appropriate, he uses robotic or laparoscopic approaches, and his publications address topics such as robot-assisted radical prostatectomy and minimally...

He also assesses and treats urinary incontinence and other bladder conditions, benign and malignant prostate diseases, and urethral disorders. For patients with kidney diseases, including urinary stones, his practice includes minimally invasive stone surgery and endoscopic approaches such as retrograde intrarenal surgery.
