DEPARTMENT
Physical Medicine & Rehabilitation

CLINICAL FOCUS

Dr. Kartaloğlu's clinical work centers on physical therapy and rehabilitation for patients with pain. She treats chronic muscle pain and fibromyalgia, and manual medicine forms part of her approach to pain treatment. Spinal health is a further area of her practice, covering the assessment and rehabilitation of spine-related complaints.

A second focus is the treatment of lymphedema and lipedema. Patients with swelling of the limbs related to these conditions may be seen for assessment and for a rehabilitation-based treatment plan.

Manual medicine Pain treatment Chronic muscle pain
Fibromyalgia Spine health
