CLINICAL FOCUS

The core of Dr. Kesimci's practice is intensive care. Patients admitted to the Intensive Care Unit are those whose condition calls for continuous observation and a coordinated, comprehensive treatment plan. In this setting she follows patients closely, adjusts treatment as their condition changes and works alongside the other teams involved in each patient's care.

Her training in anesthesiology and reanimation underpins this work. Anesthesiology concerns the management of patients before, during and after procedures that require anesthesia, while reanimation refers to the support and stabilization of patients whose vital functions are compromised. Dr.

INTERNATIONAL PATIENTS

Dr. Kesimci speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries.
