CLINICAL FOCUS

Dr. Yıldız works in interventional radiology, a field in which imaging is used to guide procedures that are typically performed through small access points rather than open surgery. Within this field, her particular interest is gastrointestinal oncology, meaning cancers affecting the digestive system and related organs.

As a radiologist, Dr. Yıldız also reviews existing imaging as part of her assessment. Reports from earlier studies, including cross-sectional imaging such as PET-CT imaging where this has already been performed, can help clarify the stage of disease and inform the discussion of options.

INTERNATIONAL PATIENTS

Dr. Yıldız consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
