CLINICAL FOCUS

Dr. Beşiroviç's practice covers three related areas of inpatient medicine. The first is inpatient medical assessment: reviewing a newly admitted or already hospitalized patient's history, current symptoms, medications and available test results, examining the patient, and documenting findings that the treating specialist and the nursing team can rely on.

The third area is inpatient care coordination. Hospital care often involves several specialists, nursing staff, diagnostic departments and, for international patients, interpreters and administrative staff. Dr. Beşiroviç helps keep these contributions aligned, so that planned investigations, treatments and discharge arrangements proceed in an orderly way and the patient understands what is happening at each stage.

INTERNATIONAL PATIENTS

Dr. Beşiroviç communicates in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
