Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Cinel's clinical work centers on the care of critically ill patients in the intensive care setting. Intensive care treatment involves the close monitoring and organ-supporting management of patients whose condition is unstable or life-threatening, and advanced life support refers to the structured measures used to sustain vital...

His areas of expertise also include palliative care, which focuses on relieving symptoms and supporting patients and families when a serious illness is advanced. Each case is evaluated on an individual basis, and the approach is discussed with the patient and relatives as appropriate.
