CLINICAL FOCUS

Internal medicine is the field concerned with the diagnosis and non-surgical management of conditions affecting adults. Dr. Insel evaluates patients whose complaints may involve more than one organ system, helps clarify the likely cause of symptoms and advises on appropriate next steps, which may include laboratory testing, imaging or referral to another specialty when this is indicated.

Conditions that are commonly assessed within internal medicine, and for which further information is available on this site, include systemic autoimmune diseases such as systemic lupus erythematosus, Sjogren syndrome, scleroderma and sarcoidosis, as well as infectious diseases such as Covid 19, Lyme disease and typhoid fever. Whether a particular condition is suitable for assessment by Dr.

INTERNATIONAL PATIENTS

Dr. Insel consults in Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
