CLINICAL FOCUS

Dr. Mammedov's areas of expertise extend across several fields of otorhinolaryngology. In the area of head and neck oncology, he assesses and treats patients with head and neck cancers. In otology, his focus includes cochlear implants for patients being evaluated for hearing rehabilitation, as well as prominent ear correction.

He also sees patients with voice hoarseness and with salivary gland diseases, and performs thyroid surgery. Whether a surgical or non-surgical approach is appropriate depends on the individual findings, and Dr. Mammedov discusses the possible options, their expected course and their limitations with each patient before any decision is made.

Head and Neck Cancers

Cochlear Implants

Rhinoplasty

Prominent Ear Correction

Septoplasty

INTERNATIONAL PATIENTS

Dr. Mammedov speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. Before the visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, audiology findings where available, operative notes and discharge summaries,...
