Gynecology & Obstetrics

## CLINICAL FOCUS

A central part of Dr. Ağca's work is the evaluation and management of endometriosis, including endometrioma, also known as a chocolate cyst. She also sees patients with menstrual irregularities and polycystic ovary syndrome, conditions in which a careful history and clinical assessment guide the choice of treatment.

In addition, Dr. Ağca provides care for sexually transmitted diseases and for ectopic pregnancy. On the obstetric side, her expertise includes epidural delivery and caesarean delivery. The appropriate approach in each case depends on the patient's diagnosis, medical history and personal circumstances, and is discussed with the patient as...
