Pulmonology

CLINICAL FOCUS

Dr. Emre's clinical work centers on a range of respiratory conditions. She evaluates and manages patients with asthma and chronic obstructive pulmonary disease, including long-term follow-up of airway disease and, where relevant, its allergic and immunological components.

Her diagnostic and procedural work includes bronchoscopy for examination of the airways and polysomnography (sleep test) for the assessment of sleep-related breathing disorders. Dr. Emre also provides respiratory therapy and rehabilitation for patients with chronic lung conditions.
