Orthopedic Surgery & Traumatology

FOCUS

Hip and Knee Replacement Surgery · Foot and...

HOSPITAL

Acibadem Ankara Hospital

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

A central part of Dr. Yavaşoğlu's practice is joint replacement surgery of the hip and knee. He assesses and treats patients with osteoarthritis and other joint diseases, and when conservative measures are no longer sufficient, he discusses with the patient whether hip replacement or knee replacement surgery may be an appropriate option.

His second subspecialty is foot and ankle surgery, covering conditions of the foot and ankle that may require surgical treatment. In the field of traumatology, Dr. Yavaşoğlu treats muscle tears, cruciate ligament tears of the knee, and hand injuries. He also has expertise in pediatric hand and upper extremity surgery, treating injuries and conditions of the hand and arm in children.

Hip replacement surgery

Hand injuries

INTERNATIONAL PATIENTS

Dr. Yavaşoğlu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior medical reports and imaging, arranges appointments, and organizes the hospital visit.
