CLINICAL FOCUS

Dr. Tun evaluates and treats brain tumours as well as spine and spinal cord tumours. In pediatric neurosurgery, his areas of expertise include craniosynostosis, tethered cord syndrome and cerebellar tonsillar herniation.

His spinal practice covers spinal surgery, the treatment of spinal deformities and spinal fractures, and minimally invasive procedures such as kyphoplasty and vertebroplasty and nucleoplasty. He also offers targeted injection treatment for neck, back and low-back pain.

Brain tumours
