HOSPITAL

Acibadem Maslak Hospital,
İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

A substantial part of Dr. Karaytuğ's practice involves joint diseases, in particular osteoarthritis of the hip and knee. Where conservative measures are no longer sufficient, he evaluates patients for hip replacement surgery and knee replacement surgery.

His second main area is foot and ankle surgery. This includes diabetic foot surgery and Charcot foot surgery, conditions in which structural changes and impaired healing require careful planning, as well as deformity correction surgery. Dr.
