CLINICAL FOCUS

A central part of Dr. Uluç's practice is the assessment and management of headache disorders. For patients with migraine, this may include nerve blocks, advanced migraine treatment protocols and biologic agents, selected according to the individual history, previous treatments and clinical findings.

His second area of focus is neuromuscular diseases, drawing on his background in clinical neurophysiology. This includes myopathies, amyotrophic lateral sclerosis (ALS), myasthenia gravis, peripheral neuropathy and neuropathic pain. These conditions often require careful diagnostic work-up and follow-up over time, and Dr.
