Gastroenterology

CLINICAL FOCUS

Dr. Öncü evaluates and manages a range of digestive and liver conditions. His areas of expertise include inflammatory bowel disease, namely Crohn's disease and ulcerative colitis, as well as celiac disease, small bowel diseases, diverticulitis, gastroenteritis and food poisoning.

He also performs diagnostic endoscopic procedures, including gastroscopy and colonoscopy. The choice of investigation and treatment is made according to each patient's history, findings and clinical needs, and is discussed with the patient before any procedure is planned.

Crohn's disease and ulcerative colitis treatment Celiac disease
Diverticulitis Gastroenteritis Gastroscopy
