CLINICAL FOCUS

Dr. Özyurt treats body and genital warts, including condyloma, and evaluates patients with concerns involving the genital area or sexually transmitted infections that affect the skin. A significant part of his work involves inflammatory skin conditions.

He also treats fungal infections, including athlete's foot, nail fungal infections and Candida infections, and he cares for patients with Behçet's disease. Urticaria treatment is another area of his practice; Dr. Özyurt evaluates pediatric urticaria as well as allergic-type rashes in adults.

Seborrheic dermatitis

INTERNATIONAL PATIENTS

Dr. Özyurt consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before the visit, the Acibadem international patient team coordinates the collection of prior reports, such as earlier dermatology notes, laboratory and pathology results and discharge summaries, and it arranges the...
