Neurosurgery

FOCUS
Treatment of Pituitary Diseases

HOSPITAL
Acibadem Atakent Hospital, İstanbul

DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Koç treats brain tumors, spinal and spinal cord tumors, and pituitary diseases, the last of which forms a particular focus of his clinical and research work. He also manages hydrocephalus and brain aneurysms, and sees patients with trigeminal neuralgia.

His spinal practice covers disc herniations and patients presenting with back pain, neck pain, and shoulder pain. In each case, the appropriate approach depends on the individual diagnosis, imaging findings, symptoms, and general health, and not every patient will be a candidate for surgery;

Brain tumors Hydrocephalus Spinal and spinal cord tumors
Trigeminal neuralgia Pituitary disease treatment

CONDITIONS TREATED

Brain tumors Hydrocephalus Spinal and spinal cord tumors
Trigeminal neuralgia Pituitary disease treatment
