Orthopedics & Joint Center

CLINICAL FOCUS

A large part of Dr. Saryilmaz's practice concerns the spine. He evaluates and treats spinal diseases and performs spinal surgery, including the treatment of spinal deformities such as kyphosis and scoliosis. He also manages spinal fractures;

His second focus is pediatric orthopedics, an area he pursued further during his observership in Dallas. This includes orthopedic conditions of childhood and adolescence, including deformities of the pediatric spine.
