CLINICAL FOCUS

Dr. Yalçın's areas of clinical interest are iron deficiency anemia in children, thalassemia, leukemia, myelodysplastic syndrome, lymphoma, bone marrow (hematopoietic stem cell) transplantation and cellular therapies.

He is a co-author of peer-reviewed research in his field. Recent publications include a report on the treatment of severe aplastic anemia with hematopoietic stem cell transplantation in the setting of active mucormycosis (Indian J Otolaryngol Head Neck Surg, 2024), a multicenter study of the clinical, immunological and genetic features...
