CLINICAL FOCUS

Dr. Bozan's areas of expertise are emergency interventions and trauma care. Emergency interventions describe the range of urgent measures that may be needed when a patient arrives with a sudden or rapidly changing medical problem. In this setting the priorities are usually a structured initial assessment, identification of conditions that need immediate attention, and the timely start of treatment or referral to the...

Trauma care refers to the evaluation and initial management of patients who have sustained physical injuries, for example after a fall, a road traffic accident or another event. Care in the emergency setting commonly involves assessing the extent of the injuries, stabilizing the patient, arranging imaging or other investigations where indicated, and coordinating further treatment with other hospital departments when this is...

INTERNATIONAL PATIENTS

Dr. Bozan consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. For international patients, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries.
