CLINICAL FOCUS

Dr. Aydemir's areas of expertise are ear diseases, nose diseases and throat diseases. Patients are typically seen because of complaints in one or more of these regions, and the first step in his approach is a structured clinical assessment: taking a detailed history of the symptoms and how they have developed, reviewing any prior examinations or imaging, and performing an ENT examination appropriate to the complaint.

Because ear, nose and throat conditions can present in many different ways and may overlap, the assessment is tailored to the individual patient. Where a condition falls outside his own field, or where input from another discipline is useful, Dr. Aydemir works within the multidisciplinary setting of the hospital so that the patient's care can be coordinated accordingly.

INTERNATIONAL PATIENTS

Dr. Aydemir consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges the appointment and the...
