DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Konur's clinical work covers both gynecological and obstetric care. On the gynecological side, he sees patients with menstrual irregularities, HPV, cervical cancer and endometriosis. He also evaluates and manages ectopic pregnancy and provides infertility assessment and care, an area that connects with his earlier work at Bahçeci IVF Center. In obstetrics, his practice includes epidural delivery and cesarean delivery.

Two further areas form his subspecialty focus. He offers sexual dysfunction treatment for women whose symptoms may have gynecological, hormonal or other underlying causes, and he treats urinary incontinence and related bladder health concerns.

Menstrual irregularities

HPV

Sexual dysfunction treatment

Urinary incontinence and bladder health

Cervical cancer

INTERNATIONAL PATIENTS

Dr. Konur consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, MRI or CT reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
