CLINICAL FOCUS

Radiology is a diagnostic specialty. Dr. Isayeva's role is to obtain and interpret imaging studies and to communicate her findings to the treating physicians who are responsible for a patient's care. Her areas of expertise are diagnostic imaging, imaging study interpretation and radiologic diagnostic consultation.

Diagnostic imaging is often one step within a broader diagnostic pathway. A radiologic consultation may involve comparing new images with earlier studies, clarifying whether an additional or different examination would be helpful, and placing the imaging findings in the context of the patient's history and symptoms.

INTERNATIONAL PATIENTS

Dr. Isayeva consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
