CLINICAL FOCUS

A central part of Dr. Ölçer's work is the assessment and medical management of thyroid disease. He also evaluates and treats patients with type 1 diabetes, type 2 diabetes and prediabetes, and he sees patients with diabetes insipidus.

Within general internal medicine, Dr. Ölçer manages gastroenteritis, gastritis, chronic pancreatitis and upper respiratory tract diseases, and he assesses patients presenting with oedema. Chronic disease management and geriatric health are further areas of his practice, with attention to the coordination of long-term conditions in older...
