Urology

CLINICAL FOCUS

A substantial part of Dr. Özgen's practice concerns kidney diseases, including kidney cancer, kidney stones, kidney failure, and hydronephrosis. He also evaluates and treats hematuria (blood in the urine), urinary tract conditions, bladder diseases, urinary stones, and urethral diseases. In urologic oncology, he sees patients with cancers of the urinary and male reproductive systems.

In andrology and male reproductive health, Dr. Özgen addresses infertility, sexual dysfunction, and sexually transmitted diseases. His practice also includes pelvic floor disorders and urogynecology, and he sees children with urological conditions within pediatric urology.

INTERNATIONAL PATIENTS

Dr. Özgen consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and organizes...
