Otorhinolaryngology (ENT)

CLINICAL FOCUS

Dr. Findik's clinical work covers a broad range of ear, nose and throat conditions in both adults and children. In nasal and sinus surgery, his areas of expertise include septoplasty for a deviated nasal septum, rhinoplasty, and septorhinoplasty, which addresses the nasal septum and the external shape of the nose in a single operation.

His practice further includes oncological surgery of the head and neck region, thyroid surgery, and the evaluation of vertigo and balance disorders. In each case, the choice between observation, medical treatment and surgery depends on the individual diagnosis, symptoms and general health, and is discussed with the patient after a...
