HOSPITAL

Acibadem Bursa Hospital

DEPARTMENT

Plastic, Reconstructive & Aesthetic Surgery

CLINICAL FOCUS

In aesthetic surgery, Dr. Özyılmaz performs rhinoplasty, breast augmentation and breast reduction. He also carries out combined body procedures such as the mommy makeover and facial contouring procedures such as bichectomy (cheek reduction).

His reconstructive work includes the management of craniosynostosis, a craniofacial condition, as part of his reconstructive surgery practice. Wound care and cosmetic dermatology are further areas of his practice, covering wound management and non-surgical treatments of the skin.
