CLINICAL FOCUS

Dr. Yarimay's areas of expertise include advanced life support, intensive care treatment, and palliative care. Advanced life support refers to the structured management of patients whose breathing or circulation is failing and who need immediate, coordinated intervention.

Palliative care focuses on relieving symptoms and supporting comfort for patients with serious or life-limiting illnesses. In this area, anesthesiologists contribute their knowledge of pain and symptom management and work together with other specialists to address the patient's needs. Dr.

INTERNATIONAL PATIENTS

Dr. Yarimay speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior medical documents before a visit, including imaging reports such as MRI, CT, X-ray or ultrasound, laboratory and pathology results, operative notes, and discharge summaries.
