HOSPITAL
Acibadem Kartal Hospital,
İstanbul

DEPARTMENT
Dental & Oral Health

CLINICAL FOCUS

Dr. Zincirkiran's practice centers on orthodontic assessment. This involves examining how the teeth and jaws are positioned, how they meet when the mouth closes, and whether the current arrangement is likely to cause functional or oral health concerns.

Her areas of expertise include tooth alignment and jaw alignment. Tooth alignment addresses crowded, spaced, rotated or otherwise misplaced teeth. Jaw alignment concerns the relationship between the upper and lower jaws, which can affect the bite as well as the appearance of the face and smile.
