Gynecology & Obstetrics

FOCUS

Menopause · Treatment of Endometriosis

HOSPITAL

Acibadem Kartal Hospital, İstanbul

DEPARTMENT

Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Sargin's practice concentrates on three related areas of women's health. In menopause care, he evaluates symptoms associated with the menopausal transition and postmenopausal period and discusses possible management approaches with each patient.

Because symptoms in these areas often overlap and may have more than one cause, the appropriate approach depends on the individual assessment. Any treatment plan is discussed with the patient after examination and review of the available information.
