Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Vardar assesses and treats a broad range of gynecologic conditions. These include menstrual irregularities, menstrual pain and premenstrual syndrome, painful intercourse and sexual function disorders, sexually transmitted infections and Bartholin cysts. He provides endometriosis treatment and manages ectopic pregnancy.

Where surgery is indicated, Dr. Vardar performs robotic surgery. In obstetrics, he offers pregnancy follow-up and delivery care and manages complications such as postpartum fever. Treatment planning is carried out in collaboration with the relevant Gynecology & Obstetrics teams, and the choice of approach depends on each patient's...
